[a] The figures for 1841, as published in *Gazette*, are full of errors which cannot now be corrected, and should therefore be used with great caution.

[b] The figures (Persons) for 1847 include 2240 military, women, and children; also 3739 male convicts on public works.

[c] " " 1851 " 9 " " " " 568 convicts, sex not distinguished.

[d] " " 1857 " 630 " " "

[e] The discrepancy in the number of brick and stone houses in 1870 and 1881 arises from a large number of residents in country districts failing to give definite descriptions.

[a] In this table deaths occurring in the Public Hospitals in Hobart and Launceston are referred to the district in which the cause of death originated. [b] This District embraces the New Town Charitable Institution, in which aged persons from all parts of the State are assembled. [c] Deaths occurring at sea or on board foreign ships in port have not been included. [d] Preventable causes embrace deaths at all ages from all causes excepting those classified as due to "Senility" or "Old Age." [e] Corrected for changes in age-distribution. [f] Indicates deaths under 1 year per 1000 births. [g] Computed in accordance with the recommendation of the Conference of Statisticians at Hobart, January, 1902, viz.—That the Age-groups be—Under 1 year, 1 to 20 years, 20 to 40 years, 40 to 60 years, 60 years and over; and that the Population of Sweden (Census 1890) be taken as the Standard. [h] The detailed rates for these divisions are omitted as the fluctuations between single years when numbers are small give unsatisfactory results.

* Close season, July, August, September. † Close season, June, July, August, September.

Note.—There are 16 boats engaged out of Hobart. Dunalley specially fishing for the export trade. The returns for 1918 do not record such cargoes for the mainland. It is stated that large quantities of crayfish are sent away of which no account is taken by the City Council, the shortage at the Hobart market is thus explained, as higher prices are obtained outside of Tasmania.

FRIENDLY SOCIETIES: REPORT OF THE STATISTICIAN FOR THE YEAR 1918.

Registrar-General's Office,

Hobart, 8th September, 1919.

SIR,

IN accordance with the provisions of "The Friendly Societies Act, 1888," I have the honour to furnish the following Report with respect to the year 1918:—

MODEL FORMS OF ACCOUNTS AND CIRCULATION OF INFORMATION.

The usual tables disclosing the operations and state of the finances of each district and branch society which furnished returns to this office for the previous year were duly published and distributed on application.

The usual difficulties with a few societies still continue as regards the lack of promptitude in forwarding returns. I am glad to say, however, that about 186 adult lodges have furnished complete statements for the current year, all of which have been carefully examined and corrected where necessary.

The following is a summary of the more important particulars relating to membership, experience, and finances of the friendly societies, as a whole, for the years 1917 and 1918.

* Increases from this date are largely caused by unusual special levies in some of the Societies.

Receipts.

Although the total membership of the societies has decreased by 108 during the year 1918, the total receipts, amounting to £103,345, show an increase of £12,611. This is due in a slight degree to extra levies for the purpose of paying re-insurance premiums, and mainly to the large increase in the amount received in payment of death claims for insured soldier-members.

Provision for Unemployed Sick Members.

Those who were disabled for work during 1918 absorbed £19,953, or 23·33 per cent. of total expenditure, in respect of sick maintenance alone ; £18,602, or 21·75 per cent., in medical expenses; £1809, or 2·12 per cent., in distress allowances, widows' and orphans' support, and other provisions; while £27,121, or 31·71 per cent., covered the disbursements in connection with funeral allowances in respect of deceased members and registered wives. Compared with the previous year, there was an increase of £827 in sick allowance, due in some measure to a mild influenza epidemic during the last half of 1918; and an increase of £4021 in financial benefits, caused by the heavy war toll.

These disbursements clearly distinguish the nature of the provisions of friendly societies from those of life assurance societies. In the latter the provisional benefit is generally obtained by the beneficiaries under the insurer's will. In the former the bulk of the benefits, such as sick pay, medical attendance, and medicine, is received during the life of a member, while, on an average, in normal times, only about 20 per cent. of the total expenditure is absorbed by death payments corresponding to the main objects of ordinary life assurance societies.

The total expenditure, amounting to £85,527, is £2570 less than in 1917 ; and includes £12,174 spent in management, and £5868 for re-insurance of soldier-members.

General.

The substantial benefits secured to societies through the "Aid to Friendly Societies Act," which came into operation in 1917, have had the effect of checking to some extent the declining tendency in membership. The falling off of 347 in 1917 was reduced to 108 in 1918. With the return of normal conditions consequent upon the restoration of peace, and the gradual growth of population, a considerably increased enrolment might reasonably be expected in the near future.

The present capital of the various societies (£262,039) gives an inadequate conception of their financial importance, because the capital sum relates almost entirely to benefits accruing at death.

A statistical summary, showing since 1892 varied particulars with respect to friendly societies' transactions is attached to this report.

"Aid to Friendly Societies Act."

Briefly, the transactions in connection with the "Aid to Friendly Societies Act" for the year ended 30/6/19 are as follow :—

(1) In accordance with the provisions of Section 4 of the Act, I certified that the various societies are entitled to receive local inscribed stock amounting to £3775, being one-half the liabilities of societies incurred by the death of 99 soldier-members.

(2) Under the insurance section of the Act the sum of £3126, premiums of insurance and re-insurance of 1794 members, has been paid into the Treasury; and I issued certificates for the payment of £12,467, the death claims for 179 soldier-members.

Assessmentism and Limitation of Funeral Benefits.

Mr. Barry, Government Actuary of Victoria and Tasmania, after examining the conditions of the various friendly societies in Tasmania during the year 1911, stated that he was decidedly of opinion that no funeral benefit should exceed the limit of £20, as now adopted and fixed by law in Victoria, and he therefore recommended that the Tasmanian Act should be amended to prohibit societies from carrying on life assurance operations.

He further deprecated the practice of certain societies in Tasmania of imposing a levy on the death of a member.

The late Mr. R. M. Johnston, Government Statistician of Tasmania, pointed out by his report on Friendly Societies in 1911, that he was fully in accord with Mr. Barry's views, and he often expressed regret that no steps had been taken to deal with the subject.

I have the honour to be,
Sir,
Your obedient Servant,
J. P. LAUGHTON,
Acting Government Statistician.

To the Hon. the Attorney-General.

†"CONSUMABLE WEALTH."—The annual value of Consumable Wealth produced in Tasmania during the year 1917-18—by the combined agency of local labour, skill, and all other animate and inanimate auxiliary instruments of productive physical energy—is estimated to approximate to £9,646,000. This is equivalent to £128 per annum per breadwinner [includes capitalists, entrepreneurs, and wage-earners]. At 3½ per cent. this annual contribution of Consumable Wealth represents an absolute present capital value of £275,600,000. It is estimated that about one-seventh of the annual value is absorbed in the maintenance, renewal, and fresh creation of the necessary auxiliary tools and instruments of production and transport. The remaining six-sevenths are absorbed by breadwinners and their dependents, representing a sum of £8,268,000, or 7s. per breadwinner per working day. From an economist's point of view each breadwinner may be rightly regarded as one of the most essential instruments of production. If therefore we regard about £110, as being the average annual effective claim of each breadwinner unit, it follows that each of the latter possesses an asset which, calculated at 3½ per cent., represents a capital value of £3143. ‖ Estimated. § Production (Exports not available). ** Up to year 1901 the revenue of State Departments, since transferred to Commonwealth, was included. *** Including (latest year £3,020,188) value of material used or worked up
